JOHN MATHEW B. MAURICIO

WEB DEVELOPER | PROGRAMMER

Muntinlupa City, Philippines • +63 956 628 4039 • johnmathewmau@gmail.com • github.com/matchewmau

Computer Science graduate and Career Service Professional Eligible software developer with experience in full-stack web development, system architecture, and AI. Skilled in React.js, Next.js, Node.js, Laravel, and Python, with experience building responsive, user-focused applications and deep learning solutions presented internationally at ECAI 2026. Strong in database optimization, UI/UX, and collaborative software development. Open to both remote/WFH and on-site opportunities.

TECHNICAL PROJECTS & RESEARCH

HairMixer – AI-Powered Hairstyle Recommendation & Simulation System **May 2026**
Lead Developer & Lead Researcher | Python, ResNet50, OpenCV, React.js, FastAPI
Zamboanga City, PH.

- Architected and trained an end-to-end computer vision pipeline using **Convolutional Neural Networks (ResNet50)** and OpenCV for multi-class facial structure classification and landmark mapping.
- Engineered a full-stack interactive simulation web app using **React.js** and **FastAPI,** reducing client-side inference and rendering latency by **40% f**or seamless virtual hairstyle previews.
- Authored peer-reviewed manuscript *"HairMixer: A Hairstyle Recommendation and Simulation System Based on Facial Structure Using CNNs,"* accepted for presentation and **publication at ECAI 2026.**

PConnect – B2B Distribution & E-Commerce Platform **Mar. 2025 - Sept. 2026**
Project Manager & Lead Developer | Laravel, PHP, MySQL, JavaScript, Tailwind CSS
Zamboanga City, PH.

- Directed full-cycle agile development and database architecture for a multi-tenant B2B commerce platform bridging regional suppliers and bulk commercial retailers.
- Implemented role-based access control (RBAC), multi-tier transaction commission models, and real-time inventory synchronization, reducing manual order processing overhead by 35%.
- Optimized Eloquent ORM queries, indexing, and REST API endpoints, sustaining sub-200ms response times during heavy transactional data reads.

TJ Fitness – Full-Stack Gym Management System **Aug. 2024 - Nov. 2024**
Full-Stack Developer | PHP, MySQL, JavaScript, Tailwind CSS, Git
Zamboanga City, PH.

- Designed and deployed a centralized management web system to automate member onboarding, subscription renewals, daily attendance, and financial tracking.
- Created responsive administrative dashboards with automated expiry notifications, decreasing front-desk administrative paperwork.
- Standardized modular MVC architecture and Git branch management workflows to ensure continuous integration and maintain high code quality.

TECHNICAL SKILLS

- **Languages:** Python, JavaScript (ES6+), PHP, C++, SQL (MySQL, PostgreSQL), HTML5, CSS3
- **Frameworks & Libs:** React.js, Next.js, Node.js, Express.js, Laravel, Django, FastAPI, Tailwind CSS, TypeScript
- **AI & Machine Learning:** Convolutional Neural Networks (CNNs), ResNet50, OpenCV, Generative AI & LLM APIs, Deep Learning
- **Tools & Infrastructure:** Git, GitHub, Docker, Postman, Linux/Bash CLI, Vercel, Figma (UI/UX Prototyping), RESTful APIs

EDUCATION

- **Western Mindanao State University Bachelor of Science in Computer Science**
  2022 – 2026 | *Zamboanga City, Philippines*

  Relevant Coursework: Data Structures & Algorithms, Software Engineering, Database Systems, Web Designing, Web Programming, AI

CERTIFICATION & TRAINING

- **Civil Service Eligibility** – Professional Level (CSC PH)
- **Published Presenter:** ECAI 2026 International Conference
- **Google Platform for AI:** Gemini & Vercel (Google Groups)
- **Dual-Platform App Development** (DICT Region IX)

LANGUAGE & DIALECTS

- **English**
- **Filipino** *(Tagalog)*
- **Bisaya** *(Dialect)*
- **Chavacano** *(Dialect)*
